- Information and Referral

WHAT IS MMAI?

The Medicare Medicaid Alignment Initiative Program (MMAI) is available to adults who have full Medicaid AND full Medicare. Through MMAI, enrollees receive their Medicare and Medicaid services through one plan.

MMAI will cover prescriptions, nursing home services, and other services to remain at home such as the Community Care Program. Most MMAI plans are available at no cost to the enrollee and some even offer \$0 copays for prescriptions. In addition, some also offer transportation, gym memberships, and a credit for over the counter medications. If you need assistance understanding your MMAI plan, have concerns, or would like to enroll in an MMAI plan, please schedule an appointment with Social Services.
