

VISUAL ARTS INSTRUCTOR

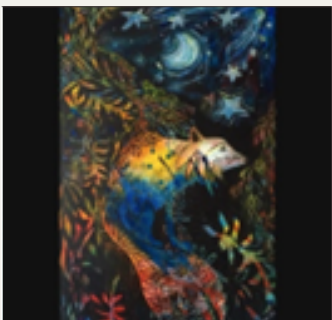

LINDA KAY

I have been working in mixed media collage since 2005 and really enjoy it. I have both a self-taught and formal fine arts background and am well versed in the arts and crafts. Mixed media is a great vehicle for me to practice all the skills I have learned and I don't limit myself to just one art media.

My life has gone through several dramatic changes over the last few years that have made my artwork much more intuitive and bolder. I explore this deeper side by working in acrylic intuitive painting, a process of keeping open to outcome through layers and layers of paint, collage and texture mediums without attachment to the end result. Where my artwork has been described as whimsical and feminine, a new depth of dreams, spiritualism and imagination are now also included.

To share my vast knowledge of painting and collage, I teach classes which include acrylics, watercolors, mixed media techniques, Ink on Yupo paper and Healing Heart workshops. I also offer Reiki energy healing by appointment.

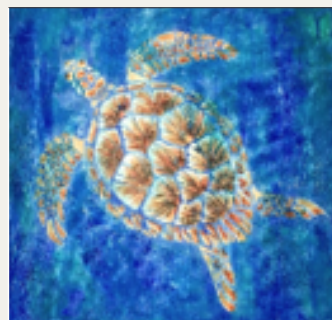

I currently work full time as a Virtual Art Instructor at the Hanover Township Senior Center in Bartlett, IL where I teach watercolor and acrylic painting, mixed media, and Art and Crafting classes.
